The Island That Invented Rum

Barbados is a small island, with a rich culture and fascinating history. At a mere 430 square kilometres, the island is the birthplace of global superstar, Rihanna; cricketing legend, Sir Garfield Sobers; the grapefruit; and one of the world's favourite spirits - rum.

In the early 17th century, the English settlers tried to establish agriculture in the new colony with crops such as tobacco, cotton and indigo, but with little success. This changed when the Sephardic Jews, who fled Brazil in the mid-17th century, arrived in Barbados with their expertise in sugar cane production, and a new technological innovation: the windmill.

This new technology helped to create and build sugar into a lucrative crop. It also brought about the African slave trade which fuelled the industry's rapid expansion and tremendous wealth to England. The story of rum is impossible to tell without acknowledging the cruelty under which sugar was cultivated.

During the British colonial presence, millions of Africans, taken from Ghana, Benin, and Nigeria, were forced to work in lifelong bondage on the sugar plantations of Barbados and other British colonies in the Americas.

The prosperity of the landowners and sugar cane planters in Barbados was derived entirely from the African slave trade for close to two centuries. According to historians, slaves were the first to discover rum in Barbados. They recognised that molasses, another byproduct of sugar cane, when fermented, made a potent liquor.

Mount Gay Distillery, then known as Mount Gilboa, may have been producing rum as early as the late 17th century. However, the first official deed is dated 20th February 1703. This gives Barbados the distinction of being the birthplace of the oldest rum in existence.

Today, under the ownership of spirits giant, Rémy Cointreau, Mount Gay continues to produce and barrel its rum in Barbados.

In addition to Mount Gay, Barbados is home to three other distilleries:

- Foursquare Rum Distillery, the island's most awarded distillery was started, and continues to be managed by the fourth generation of a Barbadian family, the Seales;
- St. Nicholas Abbey, also owned by a Barbadian family, the Warrens, produces high-quality, small-batch rums; and
- West Indies Rum Distillery, owned by Maison Ferrand, is the island's largest exporter of rum.

Trois Rivières

APPLETON ESTATE RUM & TROIS RIVIÈRES

For over 265 years, Appleton Estate has been crafting premium aged rums in the heart of Jamaica - taking inspiration from Jamaica's vibrancy, its land and the joyful nature of its people. As one of the few rums in the world to claim terroir, we craft the finest single estate aged rums 'cane to cocktail' in the heart of Jamaica's Nassau Valley. A quality and craft led by industry trailblazer Dr Joy Spence, the first female Master Blender in the spirits industry.

Trois Rivières, 2020 IWSC Rum Producer of the Year, is an exceptional Agricole Rhum crafted in Martinique from fresh sugar cane juice. A taste of the origin and ancestral know-how of AOC Rhum De La Martinique. The emblematic name of Trois Rivières ("three rivers") comes from the three rivers bordering the land: Bois d'Inde, Oman and Saint Pierre. Thanks to this unique terroir, the sugarcane stalks grow in clay soils that are rocky and rich in magnesium, conveying a singular, trademark aromatic profile to Trois Rivières rhums.
